

Training	FleetBroadband and Global Xpress
Module(s)	JUE-251, JUE-501, JUE-60GX
Target group	Service Engineers
Location	Rotterdam Office (Schaardijk 35, 3063NH, Rotterdam)
Duration	2 days, Tuesday-Wednesday
Price	€190,00 per day

DESCRIPTION

This training examines the installation, operation, maintenance, and commissioning of JRC's FleetBroadband models JUE-251 and JUE-501 & and Global Xpress JUE-60GX (all operating via Inmarsat). The JUE-251 and JUE-501 are similar products but mainly differ in scope, speed and therefore size; the 251-model weighs 4.7 kg whereas the 501-model is 20 kg. Although they can be used separately, they are usually connected to the JUE-60GX. There's enough opportunity to try out newly learned knowledge on our test equipment.

CURRICULUM

Some of the key points covered in this training (in both theory and practice) are:

- Product specifications
- System overview
- Installation
- Commissioning
- Troubleshooting/repair
- Replacing parts of antenna
- Software update procedures (where appropriate)
- Technical developments relating to our products

ENTRY REQUIREMENTS

- Basic knowledge of Windows
- Basic knowledge of radar electronics
- Understanding of industry standards IEC61162-1 and IEC61162-2
