

SmartFind R8F UHF Fire Fighter Radio

McMurdo's first marine approved two-way radio made specifically for firefighting communications

Meets the

mandate

SOLAS Chapter II-2, Regulation 10.10.4 the mandate designed to improve fire safety at sea

In November 2012, the IMO's (International Maritime Organization's) Maritime Safety Committee set out a number of measures designed to improve fire safety at sea, including the mandatory provision of specific types of handheld two-way radios for firefighting operations.

This mandate means ships must carry firefighting radios that are explosion-proof or intrinsically safe.

Vessels constructed on or after 1st July 2014 must already carry these radios, but for ships constructed before 2014, compliance becomes mandatory on 1st July 2018 ...

... up to 65,000 additional vessels must carry two-way firefighting radios by July 2018.

SmartFind R8F UHF Fire Fighter Radio

The rugged McMurdo SmartFind R8F UHF Fire Fighter Radio is an intrinsically safe two-way radio that meets new SOLAS II-2 mandated regulations for improved fire safety at sea.

It has everything an emergency team needs in a radio, from enhanced grip and large tactile buttons for easy and fast operation in an emergency situation, to a powerful in-built loud speaker and Ultra High Frequency (UHF) for optimised indoor use. Bright red and for emergency use only, SmartFind R8F is a reliable and hardwearing radio that will support firefighters at sea during potentially lifethreatening situations.

The R8F is made with the Wheelmark standard in mind, we are confident we can meet increased quality requirements, offering a future proof solution with technology you can trust.

It is imperative that emergency teams can rely on the very best equipment and this is exactly what they'll get with the McMurdo SmartFind R8F.

A fire won't wait, you shouldn't either. Ensure the safety of your crew and vessel with McMurdo, the Most Trusted Name in Emergency Readiness and Response.

SmartFind Packages

Compatible with accessory SAVOX and Peltor fire fighter radio equipment (headsets, helmets etc.) the SmartFind R8F is available in three packages

SmartFind R8F UHF Fire Fighter Radio

SmartFind R8F UHF Fire Fighter Radio

Transceiver

UHF antenna

Li-ion rechargeable battery

Belt clip

Single Unit charger

AC/DC converter/ adaptor for charger

DC connection for charger

Operators manual

Intrinsically Safe: ATEX II 2G

Ex ib IIB T4

SmartFind R8F UHF Basic Fire Fighter Package

2 x SmartFind R8F UHF Fire Fighter Radio

2 x Transceiver

2 x UHF antenna

2 x Li-ion rechargeable battery

2 x Belt clip

2 x Lanyard

2 x Single Unit charger

2 x AC/DC converter/ adaptor for charger

2 x DC connection for charger

2 x Operators manual

Intrinsically Safe: ATEX II 2G Ex ib IIB T4

SmartFind R8F UHF Basic+ Fire Fighter Package

2 x SmartFind R8F UHF Fire Fighter Radio

2 x Primary Battery Lithium (non re-chargeable)

2 x Transceiver

2 x UHF antenna

2 x Li-ion rechargeable battery

2 x Belt clip

2 x Lanyard

2 x Single Unit charger

2 x AC/DC converter/ adaptor for charger

2 x DC connection for charger

2 x Operators manual

Intrinsically Safe: ATEX II 2G Ex ib IIB T4

About Orolia Maritime

Navigation Safety has been the core of Orolia Maritime's Emergency Readiness and Response heritage over the last seventy years, leveraging globally trusted safety solutions, fleet management technology and maritime legislation expertise. Orolia Maritime's leading edge Resilient Positioning, Navigation and Timing solutions protect and augment critical GNSS dependant vessel infrastructure, while our brand portfolio includes McMurdo and Kannad beacons, Netwave's VDR technology and our Omnicom portfolio of Communication and Tracking solutions. Orolia Maritime is Trusted for Safer Journeys.
